

# Direct Access Chest X-Ray Pilot

You may be eligible for this pilot if you are over 40 years of age and not had a Chest X-Ray for the last 3 months, plus one or more of the following issues for more than 3 weeks:

- Cough
- Fatigue
- Shortness of breath
- Chest pain
- Weight loss
- Appetite loss
- Coughing up blood

If you are coughing up blood it is very important to contact your GP urgently (as well as having the Chest X-Ray).

If you are registered at one of these GP Surgery's then you may be eligible for a chest x-ray without being referred by your GP
