**Destination:  
Patient Centred  
Care**

GPS

### The Cancer Steering Group exists:

To ensure the Trust discharges its responsibilities in delivering all relevant aspects of the NHS Long term Plan.

To monitor workstream delivery against agreed targets set for GM and national objectives.

To ensure and oversee that each workstream of Tameside and Glossop IC cancer plan achieve their agreed milestones and trajectories for improvement.

To approve and support related improvement / project activities identified to enable Workstream Leads and Workstreams to deliver milestones and project deliverables.
