Greater Manchester Cancer

Best Practice Timed Pathway (BPTP)

Lisa Galligan-Dawson, Director of Performance - GM Cancer Alliance

Head and Neck Symposium 4th November 2022

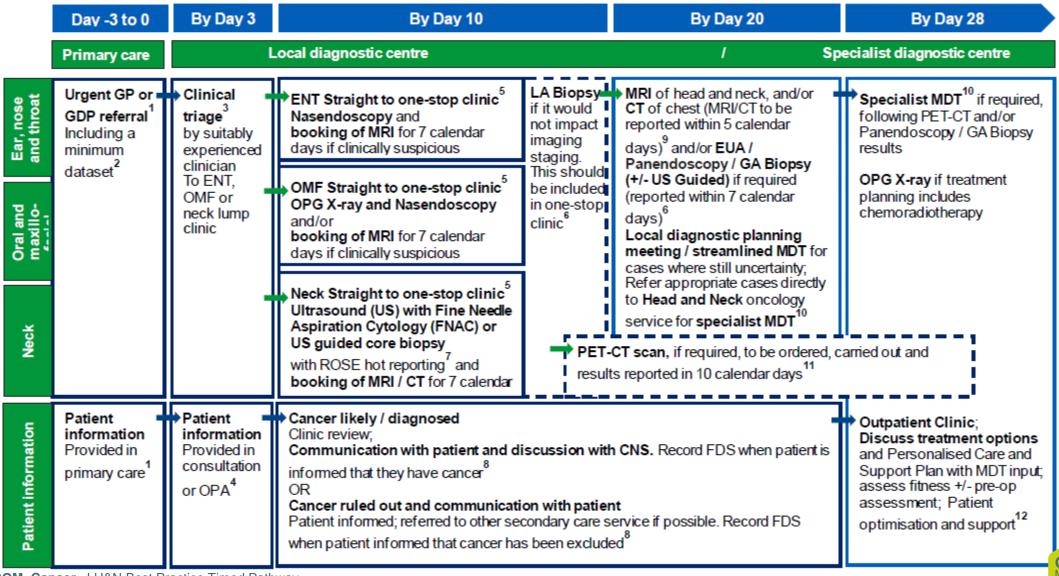

Why do we have BPTP

Cance

@GM_Cancer I H&N Best Practice Timed Pathway

28-Day Best Practice Timed Pathway

@GM_Cancer IH&N Best Practice Timed Pathway

Greater Manchester Cancer

Seven Faster Diagnosis Principles (previously RDC Principles)

1. Early identification

of patients where cancer is possible, including outreach to target existing health inequalities

2. Timely referral based on standardised referral criteria and appropriate filter function tests

3. Broad assessment of symptoms resulting in effective triage, determining whether and which tests should be carried out and in what order, based on individual patient need

4. Coordinated testing which happens in fewer visits and steps for the patient, with a significantly shorter time between referral and reaching a diagnosis

5. Timely diagnosis of patients' symptoms, cancer or otherwise, by a multidisciplinary team where relevant, and communicated appropriately to the patient

6. Appropriate onward referral to the right service for further support, investigation, treatment and/or care

Greater

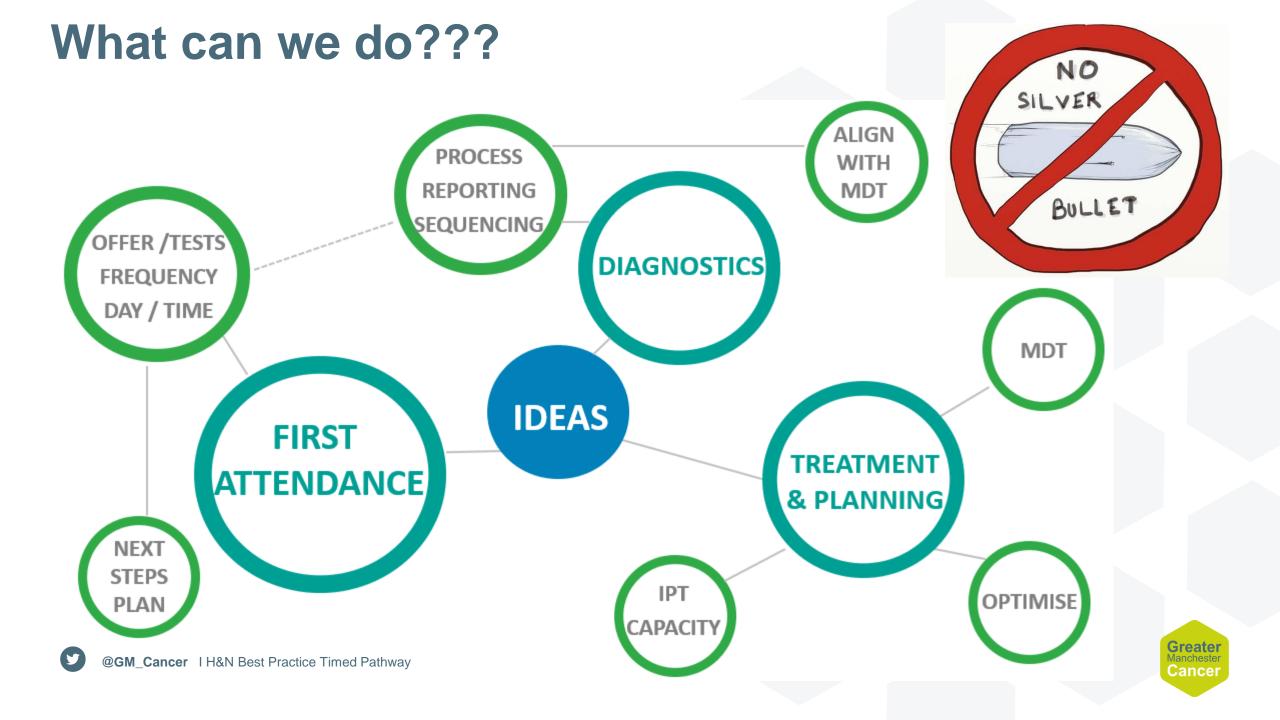

Cancer

7. Excellent patient coordination and support with patients having a single point of contact throughout their diagnostic journey, alongside access to the right information, support and advice

Current Performance (GM)

FDS (28 day)			FDS National	FDS Breakdown
Month	Performance	Variation by Trust	Comparison	Breakaown
June 22	63%	47 - 80%	73% (Aug 22)	20% Cancer Diag.
July 22	57%	27 – 81%	10% lower	F 270/
Aug 22	57%	28 – 83%	(GM)	5 – 27% Variation by Trust
62 Day RTT			BPTP Milestones	
62 Day	RTT		BPTP Milestones	
_		Variation by Trust	BPTP Milestones 1st Seen (by D10)	57% (26 – 88%)
		Variation by Trust 0 - 82%	1st Seen (by D10)	
Month	Performance		1st Seen (by D10) DTT (by D28)	57% (26 – 88%) 7% (0 – 100%)
Month June 22	Performance 38%	0 - 82%	1st Seen (by D10)	

A reminder as to the importance of performance and recovery

- 1. Performance is a quality marker for patients and the 'outside' view of the services we deliver
- 2. Performance = timely, effective, high quality care
- There is psychological and physical harm as a result of delays

It is everyone's responsibility

"It's not the 62 days, it's the 61 nights in between"

patient to Sir Mike Richards 2018
