NHS Foundation Trust

Greater Manchester Learning Disability Project

The project started in 2022 in Bury but it expanded from 2023 to all Greater Manchester

We worked together with many teams, NW Screening Hub, GPs, Community Learning Disability Teams and screening staff to offer support to people invited with a learning disability

No invited Bury	No supported Bury	No who returned kit
71	46	23 (50%)
No invited GM	No supported GM	No who retuned kit
192	101	80 (78%)

Project successes: 3 +ve FIT, all patients supported to colonoscopy where polyps were removed.
Collaborative working across GM.

User experience: 'the easy read guide I receive with my kit explained how to do the kit – it was easy and the talk with Caroline helped' Tameside People First

Poster submission: Caroline Mattinson, Cancer Screening Improvement Lead, Pennine Bowel Cancer Screening Programme. Caroline.mattinson@nca.nhs.uk Acknowledgements: Tameside People First
