

Greater Manchester
Cancer Alliance

Maria

Mike

We're shaping the future of cancer care.

By sharing our experiences, we're
working to improve cancer services for
future patients in Greater Manchester.

Russ

Farida

We know that no one knows cancer like the people who have had a diagnosis.

That's why the Greater Manchester Cancer Voices Community works to connect people with real lived experience of the disease with healthcare professionals working to improve services. By listening to insights from patients and their carers, we can better understand how to best support people in the future.

There are loads of ways to get involved, and we try to be as flexible as possible to make sure everyone's voice can be heard. You could help by sharing your story, improving training for healthcare professionals or giving your opinion on pathway boards. We currently offer virtual and face to face options to suit you. No matter your needs, lifestyle or interests, we'll find a way for you to share your point of view.

If you've had a cancer diagnosis, or you've cared for someone who has in the Greater Manchester area we need to hear from you. You can help us make a difference for future patients in Greater Manchester.

Join the community.
