

My Friend Has Cancer

Learn how to be a good friend to someone living with cancer.

'My Friend Has Cancer' is an audio story where you will imagine you are the best friend of someone living with cancer. As you work through the story you will explore the important role personalised care can play in providing support to someone living with cancer.

Everything in the audio story has been cocreated by 'real people' living with cancer. They have bravely shared their lived experience, imaginations, and creativity to help others.
